Fun With SVGs

How to unzip and import a SVG file

Once you have downloaded a file from Etsy or other on-line source you need to follow these steps to get it into your software.

Cricut Design Space

• Locate your downloaded file

• Right click on it, choose extract all, and save to a location on your hard drive

• Locate the SVG file (usually shown with an Internet icon)

• Open Design Space

• Click on New Project

• Click on upload on the left side of mat

• Click on upload image

• Browse to the folder that you saved your files to and choose the svg.

• Un-group, slice or whatever you wish to do to create your project.
